**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Love (Reg. No. 58,421) on 20 May 2009.

The application has been amended as follows:

Claim 22, lines 16-17, replace "enlarging display setting device" with —means for enlarging—

***Allowable Subject Matter***

2. Claims 1, 2, 5, 7-14, 17-29, 32 and 34-38 (renumbered 1-30) allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 28, the Examiner could not find prior art teaching or suggesting the required limitations, especially the limitation "wherein when the clock frequency output from the clock generator is changed, an exposure amount is prevented from changing by keeping a pulse interval between electronic shutter pulses output to the imaging device".

Regarding independent claim 22, the Examiner could not find prior art teaching or suggesting the required limitations, especially the limitations "wherein even though a

first enlargement instruction is input to the enlarging display setting device, a maximum enlarged image is displayed on the image display device under the condition that the drive mode is not changed to the first frame mode, and wherein when a second enlargement instruction is input to the means for enlarging, the drive mode is changed to the first frame mode".

Note: Examiner makes commonly assigned US Patent No. 7,388,607 of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
